

The **Christine Kühne – Center for Allergy Research and Education** (CK-CARE) research consortium located at the Medicine Campus Davos, Switzerland is hiring a highly motivated

Biobank Manager (100%)

CK-CARE comprises five clinical and basic research facilities in Switzerland and Germany with the main focus on Allergology and Dermatology. The Medicine Campus Davos integrates medical care (with Hochgebirgsklinik Davos), translational and basic research in one place. Patients benefit from individually adapted rehabilitative care, acute diagnostics, prevention medicine and treatment of chronic inflammatory diseases.

We are looking for a highly motivated person to expand CK-CAREs translational research activities within our CK-CARE facilities in Davos.

Your Profile

- Degree as BTA or MTA (laboratory technician)
- **Or** degree in Life Sciences (BSc or MSc) in Biology, Molecular Biology, Biochemistry, or a related discipline (University degree or applied science)
- Experience in working with human samples under S2-laboratory conditions (incl. PBMC isolation and cell culture techniques)
- Knowledge of Biobanking and related processes
- Familiar with ICH-GCP as well as legal and local requirements, preferably with certified training
- Familiar with molecular and cellular biology techniques (e.g. RNA/DNA isolation, qPCR, FACS, ELISA)
- Interested in learning and developing additional skills and methods
- Good knowledge of standard software packages (e.g. MS-Office)
- Responsible and outstanding organization skills
- Strong interpersonal skills and a great team player
- Languages: English, German is a plus

Job Description – in this role you are

- training and supervising biobank personnel
- support in processing of biobank samples, sample management and equipment management
- responsible for data entry and documentation
- monitoring and documenting biobank processes and equipment
- familiar with the organisation and ordering of biobank materials
- maintaining and creating new relevant documents in close collaboration with the Quality Manager
- conducting measurements as a service for members of the Medicine Campus Davos and customers of Davos BioSciences
- the main contact from the external biobank facilities regarding all biobanking matters

Why join our team?

- You want to be part of the growing medical campus dedicated to front basic and translational research
- You value varied possibilities for personal and professional growth
- You value a competitive salary and social benefits
- We are happy to provide help with working permission and relocation procedures

Interested?

We look forward to receiving your application with a brief explanation why you are the ideal candidate for this position, your detailed curriculum vitae and the contact details of two to three references. Please submit your complete application as one single pdf file to info@ck-care.ch.

Questions regarding this position should be directed to Dr. Claudio Rhyner, CEO CK-CARE AG | phone: +41 81 410 13 00. Initial application deadline is March 31, 2025, but the call will remain open until the positions are filled. Candidates will be contacted by us on a rolling basis. The successful candidate can begin immediately or upon mutual agreement.
